

8 OCTOBER 2005

CERTIFICATE

To Whom It May Concern:

Name: Mr. Subhrajit Bhattacharya (Undergraduate student)

Department and Institute: Department of Mechanical Engineering, Indian Institute of Technology, Kharagpur. (Enrolled for 4-years B.Tech. in Mech. Engg.)

Period of training at L&T: 5th May to 30th June, 2005.

Mr. Subhrajit Bhattacharya has worked in the area of Plastic analysis of High-pressure process equipment during his training period at L&T.

I find the quality of work produced by him as well as his grasp of engineering processes to be excellent. He showed a very good command over fundamental concepts & is capable of integrating his learning to practical situations.

During execution of project work, he demonstrated a very good use of planned & systematic approach in his work. I find him to be able to get along with others & gather useful information from them.

He shows a very good written communication skill based on reports produced by him. He is sincere, hard working & dependable.
